Summer Math 2011  
Completed Geometry

Every problem from **each** worksheet is to be completed with **all work shown** from the problems on a separate piece of paper or on the front or back of the worksheets. Answers should be written in the corresponding box. These worksheets are due the first day of school in math class. This will be the first quiz grade for the new school year. The grade will be based on completion and the work shown for the problems.

Solutions are included so that your student may check his/her work after completing the problems. Your child may work through the problems until the correct solution is found, being sure to show all of the correct work along with this solution.
